space saving

Shelving *focus*

COMPACT@FILE, FREESTANDING MOBILE SHELVING AND ARCHIVE SYSTEMS FROM YOUR DOCUMENT MANAGEMENT SPECIALISTS - AUSRECORD.

Saving space and time is not a luxury, it's a necessity.

AusRecord has a comprehensive range of up-to-date filing cabinets that can save you time and money.

These systems which can be tailored to suit your needs will;

- save you floor space, up to 70% space saving compared to commercial storage products;
- provide you with better visibility and access in the work area to enable faster retrieval and more efficient refiling; and
- enhance your office with a professionally presented records system.

The AusRecord Compact@File has been designed for the modern office to offer a versatile, high density method of storage allowing quick and easy access to stored goods. This attractive and streamlined design complements any office layout.

Compare the space savings between 10 four drawer filing cabinets and a Compact@File unit.

Area used for filing cabinets = 8m²

Compact@File area = 3m²

Compact@File units offer:

- Quick and easy access to stored goods. No sorting through look-alike files. 3½ times faster than drawer filing
- Accuracy as the colour code method of file identification is THE most accurate - no more misfiles; save MORE time
- Available in manual or mechanically operated units
- Units can be extended and altered to support your future storage needs
- Low profile tracks avoid any tripping hazards

- No fixing to the floor required, allowing easy installation and relocation
- Available with our secure locking mechanism to protect your confidential records
- AusRecord offers a full 3 year warranty
